

Be the Principal Scientist on the World's biggest dry shampoo brand? Yes you can!

Batiste has been the UK's #1 Dry Shampoo brand for over 30 years, offering consumers the fastest and easiest way to great looking hair. We've been using our expertise to help people achieve fabulous hair in an instant with our range of products for use between washes. We pride ourselves on creating high quality, innovative products that are used by millions of happy customers in over 60 countries.

As our Principal Scientist, you can play an important role in further developing our Batiste hair care portfolio and identifying new opportunities for growth. This exciting role offers a diverse range of responsibilities and challenges meaning that you will be involved in the full project cycle across our hair care portfolio.

Supporting the R&D Manager, your responsibilities will include:

- leading an R&D project team to develop new products across a portfolio of hair care brands including the world's biggest dry shampoo brand, Batiste.
- constructing and delivering technical and innovation strategies.
- designing and implementing research programs to improve depth of technical understanding.
- identifying intellectual property and assure proper steps are taken to protect the company assets.

Who you are - You must be able to demonstrate a sound understanding of hair care product development and the science underlying product and process development. With extensive hair science knowledge, you will have a proven project delivery record and be accomplishment orientated. You will have a degree/PhD in Sciences or Engineering or relevant professional qualifications to support this understanding and knowledge.

Fostering strong cross-functional relationships and building effective project teams will be an important part of this role and you'll need top notch communication skills to make this happen.

Who we are - Church & Dwight UK Ltd is a subsidiary of Church & Dwight Co. Inc. which creates an exciting, challenging, fast paced, global and diverse work environment for our people.

The UK production site and offices are based on the scenic south-east coast of Kent in Folkestone. Our R&D team work closely with our global colleagues, including USA and France, which offers a great opportunity for innovation, knowledge sharing and personal growth. Church & Dwight are pleased to be named in the Forbes list for the top 100 innovative companies of 2016.

Church & Dwight UK product portfolio consists of well-known brands such as Batiste dry shampoo, Arm & Hammer dental care, FemFresh, Pearl Drops, First Response, Nair, Orajel and Sterimar. As well as selling to the UK domestic market, we export our products around the world.

As well as a competitive salary, we offer a range of benefits to help people get the most out of their working and personal lives.
