

Cosmetic Production and Quality Chemist

As the UK's fastest growing beauty brand, we are always looking for bright and talented individuals to join our family and keep up the momentum of delivering more of the highest quality, naturally derived beauty products for our customers. Right now, we're looking for a passionate and experienced chemist to help improve our production efficiencies and implement a higher quality criteria in our manufacturing kitchen to ensure product perfection always.

Your role will include:

- Upscaling batch sizes for production
- Improving production efficiencies and providing training on new methods
- Optimising existing formulations in performance, quality, and production efficiency
- Training and managing a team in day to day production
- Setting the production schedule for the optimum and most efficient output
- Quality control and sign off each production batch before filling
- Maintaining a hygienic and organised manufacturing kitchen
- Provide support in aspects relating to ISO 9001:2015

Skills we'd love for you to bring to the team:

- A degree level qualification in a relevant subject.
- Minimum 5 years' experience in a similar role
- Impeccable organisation and time management skills
- Ability to manage a small team
- Experience in quality control of cosmetic products

A little bit about Tropic

Tropic Skin Care is a cruelty free and vegan beauty brand co-owned by Lord Alan Sugar and Susan Ma. It's been listed by the Sunday Times as currently the UK's 14th fastest growing company and the fastest growing beauty brand. With over 5000 Tropic Ambassadors selling our products and a rapidly expanding HQ team, we offer huge potential for career progression.
